Description

Nervigesic® (Pregabalin 300mg) – Effective Relief for Nerve Pain & Anxiety

Nervigesic® (Pregabalin 300mg) is a powerful and reliable medication used to manage a variety of neurological and pain-related conditions. It is widely prescribed for neuropathic pain, generalized anxiety disorder (GAD), fibromyalgia, and epilepsy.

Manufactured by Signature Pharmaceuticals, Nervigesic® offers a high-quality formulation that delivers consistent results. By calming overactive nerves, it helps reduce pain sensations, control seizures, and ease symptoms of anxiety — improving both comfort and quality of life.

Key Benefits of Nervigesic® (Pregabalin 300mg)

- **Relieves neuropathic pain** caused by diabetes, spinal cord injuries, or shingles
- **Manages anxiety disorders** effectively with the right **pregabalin dose for anxiety**
- **Reduces fibromyalgia symptoms**, relieving muscle pain and tension
- **Controls seizures and epilepsy** by stabilizing electrical nerve activity
- **Improves sleep quality** by minimizing nerve-related discomfort and restlessness

How Does Pregabalin Work?

Pregabalin acts as a **calcium channel modulator**, which helps calm overactive nerve cells and block pain signals from reaching the brain. This action makes it highly effective for nerve pain, fibromyalgia, epilepsy, and anxiety.

When used in the correct **pregabalin dose for anxiety**, it can help reduce excessive nerve activity, promote relaxation, and restore emotional balance — making it a trusted choice for people struggling with chronic anxiety and nerve-related issues.

Dosage & Administration

- **Typical Dosage:** 150mg to 300mg per day (divided into two or three doses)

- **Maximum Dosage:** 600mg per day (only under medical supervision)
- **How to Take:** Swallow the capsule whole with water, with or without food

> **Important:** Do not stop taking Nervigesic® suddenly, as it may cause withdrawal symptoms. Always consult your doctor to determine the appropriate **pregabalin dose for anxiety** or other conditions before adjusting your dosage.

Potential Side Effects

While most patients tolerate Nervigesic® well, some may experience mild side effects such as:

- Drowsiness or dizziness
- Dry mouth
- Blurred vision
- Weight gain
- Swelling in hands or feet

Seek immediate medical help if you experience severe dizziness, difficulty breathing, or swelling in your face or throat.

Precautions & Warnings

- Avoid alcohol — it can increase dizziness and drowsiness.
- Not recommended for pregnant or breastfeeding women unless advised by a doctor.
- Patients with **kidney disease** may need a dose adjustment.
- Avoid driving or operating machinery until you understand how Pregabalin affects you.
- Use cautiously if you have a history of substance abuse, as Pregabalin may be habit-forming.
